# Breast Health: A Team Approach

Saturday, February 21, 2026

7:25 am – 2:00 pm

Radisson Blu Mall of America – Lakes Ballroom  
Bloomington, MN 55425

The Allina Health Cancer Institute – Piper Breast Center would like to invite you to save the date for the 2026 Conference. This one-day Breast Health Conference is an opportunity to hear from specialists from multiple fields across Allina Health presenting information about the latest advancements in breast health and the care of patients. We look forward to seeing you in 2026!

**Topics:** Oncology nurse navigation, genetics, radiation therapy, breast reconstruction with lumpectomy, physiotherapy, imaging of the reconstructed breast, AI and breast cancer, provider conversation, tattooing after breast cancer, along with panel discussions and Q&A.

**Register now to guarantee your spot!!**

**APPROVED CREDITS:**

**Physician** – Allina Health is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. Allina Health designates this live activity for a maximum of 5.0 AMA PRA Category 1 Credits™. ## OVERALL LEARNING OBJECTIVES & AGENDA

Upon completion of this educational activity, the participant should be a better able to:

1. Identify three essential elements of the Oncology Nurse Navigator role.
2. Review the genetic contributions to overall breast cancer risk and how this information can guide cancer screening and management.
3. Summarize various treatment fractionations and field alterations available in modern times.
4. Discuss local flaps available for reconstruction and also discuss timing of reconstruction and its impact on options available.
5. Identify 3 common functional sequelae of breast cancer treatment.
6. Discuss the imaging manifestations that may be observed in the postsurgical and reconstructed breast after surgical treatment of breast cancer.
7. Discuss the available AI algorithms as they pertain to breast imaging and potential upcoming advances.
8. Develop the skills needed to deliver more humanized, person-centered care.
9. Express the intersection of art, identity and healing with mastectomy tattoos.
